

HANDOZER-D3-MG™

PATENT PENDING

The Handozer Multi Groomer Lawn & Garden Tractor Implement

The new **Handozer Multi Groomer** drag by **Handozer Distributing** is designed to grade soil, sand, gravel and more. The **Handozer D3-MG** is user friendly and is great for grooming gravel driveways, home horse arenas, round pins, gardens and more. All with your **lawn & garden tractor or small ATV!**

The new caster system makes the **Handozer D3-MG** easy to transport and handle. Attach our pull rope to the caster lever and operate the **D3 Dozer** remotely from the seat of your mower! The adjustable clevis hitch gives you total control of the working depth. The front spikes are adjustable and rip the soil. The new pivoting back rake is reversible and has three positions for raking or grading soil. If more weight is what you need simply place a standard block from your local Home & Garden Store in the brackets provided in frame.

Do it all with your Lawn & Garden Tractor!

The durable "Multi Groomer" rips, levels and grooms your gravel drives, arenas, landscaping and more! At the controlled depth you desire!

Designed to add Concrete Block for added weight

Available with optional drag mat attachment for surface finishing

The design of **Handozer D3-MG** side rails and tow hitch maintain the depth control you desire while providing an aggressive cutting action for the toughest of surfaces. The **D3-MG** is also a leveling implement for your gravel and garden areas. The **MG** is two pieces of garden tractor or ATV implements for the price of one!
