

The Handozer MG Rip Shank Multi Groomer Harrow & Rip Shank Drags

The new **Handozer MGRS Equestrian Arena & Driveway Groomer** by **Handozer Distributing** is a drag that is designed to be user friendly and to prepare the best possible footing for home, ranch & equine center horse arenas. The **Handozer MGRS** is even durable enough to grade the roughest gravel driveways! The **Handozer Multi Groomer Rip Shank Harrow** will maintain and level the footing in your arena or round pin, while giving you total control of the working depth you demand. The heavy duty $\frac{3}{4}$ " thick rip shanks are adjustable from 1 to 5 inches. Combined with a reversible, adjustable leveling bar, the **Handozer MGRS** will attack the roughest of footings. The **Handozer MGRS** will maintain your gravel drives and more!

The design of **Handozer MGRS** side rails and tow hitch maintain the soil depth control you desire while providing an aggressive cutting action for the toughest of surfaces. The **Handozer MGRS** is a leveling implement for all your grooming & grading needs! The **Handozer MGRS** is two pieces of ATV, Utility Vehicle & Tractor Implements for the price of one!

HANDOZER-D5-MGRS-3P™
Three Point Model

3 POINT HITCH KIT

- Both category 1 and quick hitch compatible

Adjustable Leveling Bar

Handozer Side Rails

- Cuts the burm off the edge of the arena and levels it out

TOW BEHIND MODELS
